MAJOR ACCOMPLISHMENT & PROJECTS

you can find source code of every project in my github
account

FLIXHUB | My major project of Bca made in react and
redux with the help of TMDB api which is a movie
database api in this project you can see a login page for
its backend I used firebase . Which is also responsible
for its authentication etc ..

After opening the app you can also see a movie trailer in
background a search feature and when you click on any
movie it will show you detail page of this project

(click on flixhub to get to the website)

INTRESTS

learning new technologies *
traveling * self-Inprovement *
sports
